

**"My husband and I wanted to buy a house...** but our credit was not up to par, not even close. We worked with Brent and his team for about 6 months cleaning our credit. They helped us remove inaccuracies and showed us what we needed to pay off. After our credit was clean they stayed with us and gave us advice on what types of credit we should get to rebuild our credit. We still contact Brent 2 years after and he still helps us with any of our credit questions. We have a house now. We couldn't have done it without Brent and his team. We cannot say enough good things about them!" – **Callaye E. from El Cajon, CA** 🍷

# Are you in control of your credit, or is your credit controlling you?

The truth is, most of us have been there. Maybe you've lost your job, had medical issues, gone through a divorce, or have had to care for family members, any of which can cause financial hardships. Maybe you simply weren't taught how to manage your finances, so you got overextended and don't know what to do to recover. Regardless of your specific credit and/or student loan issues, we're sure of two things: you aren't alone, and we can help you fix them.

## When you partner with bSquared Credit to take control of your credit:

- **We'll provide you** with an expert credit report analysis and deliver a step-by-step plan to help you improve your credit scores and your overall credit health.
- **We'll be by your side** with customized services to help you achieve your overall credit improvement goals.

## Why what we do matters?

Living with bad credit is costing you money. You're paying higher interest rates on car loans, mortgages, and for each credit card you use. More than half of today's major companies use background checks when considering new employees, which means your credit can even affect your future earning potential.

And here's the truth: Too many people wait to take charge of their credit, and their lives, because they're embarrassed, unsure how to get started, or afraid it may be a lost cause. We see it every day, and as our customers will be the first to tell you, taking the leap and getting started today is THE BEST decision you can make! **So...**

**"I mismanaged my money from the beginning of adulthood...** taking out loans and credit cards and not paying them back. I lived check to check, had less than 500 credit scores and was so embarrassed as I felt like I couldn't get ahead. I heard of bSquared Credit from a family member who used them to fix her credit so I made the call for help. Working with bSquared Credit was absolutely life changing! They were so helpful and walked me through their recommended plan. They led the whole repair process and after 6 months, my credit scores were in the 680s. I achieved score improvements of 180+ points! My husband ended up using their repair services too. In less than 12 months we ended up getting married and we bought our first home together. Thank you for giving us a fresh start we so desperately needed. We couldn't have done it without you!" – Heidi C. from Seattle WA
